Dear Mr. Bowling and Ms. Parson:

Thank you for your recent code enforcement efforts regarding the illegal operation of short term rentals in our low density residential community .

After years of attending county hearings regarding this matter and listening to public comment, it's apparent that code enforcement can be effective and should be implemented with proper documentation of the violation.

Attached to this email are violators under current county guidelines regarding short term rentals in the Coastal area that we are aware of as of the present time. We hope that this list, and another upcoming one, will be helpful to your efforts and can be incorporated into your files. There no doubt are many more violators who remain under the radar screen and do whatever they can to hide their activity.

We have tried to supply you with physical addresses, advertising descriptions, APN's and monthly review numbers. Our community would appreciate your departments' support and would appreciate being notified of any action against the STRs listed.

This list was compiled by several Carmel Highlands residents, and it definitely made us feel that the "neighbor" is being taken away from our "neighborhood".

Regards,
Michelle Alway
